Appointments

The Field Museum of Natural History (Chicago, IL)

Research, Advising, Outreach, & Fundraising

One of the world's leading natural history museums (40 million+ specimens)

AAM-accredited

Research Associate, Negaunee Integrative Research Center, Life Sciences Section

2020–present

Bass Postdoctoral Researcher, Negaunee Integrative Research Center, Earth Sciences Section

June 2018–June 2020

Supervisor: Dr. Peter Makovicky

The University of Chicago (Chicago, IL)

Research, Teaching, & Outreach

#2 USA Paleontology program (*U.S. News & World Report* 2022)

#24–26 globally in Biological Sciences (*QS World University Rankings by Subject* 2022–2023)

#9–11 World university (*QS World University Rankings* 2021–2024)

Postdoctoral Scholar, Biological Sciences Division, Dept. of Organismal Biology and Anatomy

Oct. 2021–Dec. 2024

Supervisor: Dr. Paul Sereno

Northwestern University (Evanston, IL)

Teaching

#7 USA university (*U.S. News & World Report* 2026)

#30 World university (*Times Higher Education* 2026)

Environmental Science: #44 USA; Earth Science & Geophysics: #40 USA; Paleontology: #35 USA (*EduRank* 2026)

Lecturer, Dept. of Earth, Environmental, and Planetary Sciences

Starting Fall 2026

Course to be taught: EARTH 101 Earth Science for the 21st Century

Benedictine University (Lisle, IL)

Teaching

Adjunct Lecturer, Biological Sciences

Fall 2025

Courses taught: BIOL 4364 Ecology Laboratory; BIOL 1199 Principles of Biology Lab

The University of Illinois Chicago (Chicago, IL)

Teaching

Adjunct Lecturer, Dept. of Earth and Environmental Sciences

Spring 2022

Course taught: EAES/BIOS 360 Introduction to Paleontology

Education

The University of Bristol (Bristol, UK)

School of Earth Sciences

#1 Paleontology research group globally (*Center for World University Rankings* 2017)

#2 UK, #16 globally in Earth Sciences (*Shanghai Global Ranking of Academic Subjects* 2019)

#19 globally in Earth Sciences (*QS World University Rankings by Subject* 2016)

Russell Group

Ph.D. in Geology

2015–April 2018 (*viva*), Jan. 2019 (graduation ceremony)

Advisor: Dr. Jakob Vinther

Thesis: “The taphonomy of soft tissues and the evolution of feathers”

M.Sc. (*Distinction*) in Palaeobiology

2014–2015 (submission), Jan. 2016 (graduation ceremony)

Advisor: Dr. Jakob Vinther

Thesis: “The taphonomy of keratin in archosaurs”

Princeton University (Princeton, NJ)

#1 USA university (*U.S. News & World Report* 2010, 2012–2015, etc.)

Top-13 World university (*QS World University Rankings* 2010–2014, etc.)

Ivy League

B.A. (*Magna Cum Laude*) in Ecology and Evolutionary Biology

2010–2014

Advisor: Dr. James Gould

Thesis: “Paleobiology of North American stegosaurs: Evidence for sexual dimorphism”

Independent Research Program Statement

My independent research program centers on sediment-encased maturation. I developed this high-temperature, high-pressure experimental taphonomic method during my Ph.D. to simulate long-term, deep-burial diagenesis and produce ‘synthetic fossils’. With this

laboratory method, my team and I have published multiple peer-reviewed articles investigating the preservation, alteration, and detectability of biomolecules in the fossil record. I have applied this approach to proteins, pigments, steroids, plant resins, and other tissues, and the work has been covered in the *BBC*, *The New York Times*, *Science*, and elsewhere. My method has formed the basis of awarded research grants (Geological Society of London, Palaeontological Association, Paleontological Society) and pending funding proposals (NSF, Leverhulme Trust, Field Museum). I have mentored graduate students using my method in their own projects at the University of Hong Kong, University of California Davis, University of Chicago, and University of Bristol. Ultimately, I plan to expand this experimental framework in three directions: (1) understand how organic fossils would preserve under early Earth conditions, (2) predict how organics and pollutants from modern environments will appear in the future rock record, and (3) aid in the search for extraterrestrial fossils by simulating burial conditions on moons and other planets.

Publications

h-index = 17; *i10*-index = 19

(Year indicates date of initial online publication; Bold font indicates 1st, 2nd, or PI authorship or high impact journal)

28) **Saitta, ET**, Sereno, PC, Vidal, D, Ciudad Real, M, Keillor, TM, Bop, L, Baumgart, SL, Burdick, A, Radermacher, V, Kaye, TG, Dussubieux, L, Maxey, E, Filatov, A, and Chen, X (Accepted) Dinosaur ‘mummification’: clay templating in a fluvial setting preserves three-dimensional integument renderings after carcass desiccation. *Acta Palaeontologica Polonica*.

Pending Funds & Proposals

National Science Foundation – Life and Environments Through Time

Institution: Field Museum of Natural History

PI: Herrera, FA

Co-PI: Saitta, ET (*wrote initial draft of proposal*)

“Experimental & Molecular Study of Plant Fossilization from Fossil Lake Lagerstätte”

Requested Amount: \$794,906

Field Museum – 2027 Science Innovation Award

PIs: Mann, A; Herrera, FA

Co-PIs: Saitta, ET (*wrote initial draft of proposal*); So, C; D’Antonio, M

“Experimental Simulation of Mazon Creek Fossilization”

Requested Amount: \$54,998

Leverhulme Trust – Research Project Grant

Institution: University of Bristol

Principal Applicant: Vinther, J

Co-Applicants: Bull, I; Brooker, R

Research Assistant: Saitta, ET

“Decoding Molecular Signals from Deep Time: Experimental and Predictive Framework”

Requested Amount: £481,078

Teaching

(*includes training of a graduate student teaching assistant)

Lecturer, Northwestern University

Lead, sole course instructor: Earth Science for the 21st Century EARTH 101*

Starting Fall 2026

Adjunct Lecturer, Benedictine University (Lisle, IL)

Lead, sole course instructor: Ecology Laboratory BIOL 4364 (2 sections)

Fall 2025

Section instructor: Principles of Biology Lab BIOL 1199 (1 section)

Fall 2025

Adjunct Lecturer, University of Illinois Chicago

Lead, sole course instructor: Introduction to Paleontology EAES/BIOS 360*

Spring 2022

Guest Lecturer, University of Chicago

Dinosaur Science BIOS 23100: “Taphonomy & Footprints” lecture

Spring 2023

Postdoctoral Field Teaching Assistant, University of Chicago

Dinosaur Science BIOS 23100: Week-long dinosaur excavation in Wyoming

Summer 2023

Graduate Teaching Assistant / Demonstrator, University of BristolEvolution of the Biosphere EASC30008 (*Master’s level course*)

Fall 2015

Geobiology EASC20024

Spring 2017

Geology 1: Evolution of Earth and Life EASC10001

Spring 2017

Environmental Geoscience: Climate and Ecology EASC10002

Fall 2015

Advising, Training, & Mentoring

Mentoring

2018-present

My sediment-encased maturation method has been used* in collaboration with graduate students from:

University of Hong Kong – Ph.D. student; Two chapters of 2021 thesis**University of California Davis** – Ph.D. student**University of Chicago** – Ph.D. student

University of Bristol – M.Sci. student; Entire 2023 thesis based on modern, fossil, capsule maturation, & sediment-encased maturation samples I processed & lipid extracted
**Other students from the Netherlands, UK, & China have also inquired about using my method in their Ph.D. projects*

Advising

Undergraduate students: summer intern* & volunteer supervising, **Field Museum** **2018-2020**
**Supported by University of Chicago's Jeff Metcalf Internship Program; became study coauthor & later pursued science in graduate school*

Training

Graduate student teaching assistant training, **Northwestern University** **Starting Fall 2026**
 Graduate student teaching assistant training, **University of Illinois Chicago** **Spring 2022**

Editorial Roles

Associate Editor , <i>Frontiers in Ecology & Evolution</i> , Paleoecology section	2025-present
--	--------------

Public Outreach

Fossil Crates Live! Expert guest on members-only Zoom call series hosted by Dr. Brian Curtice	3/2025
Sereno Fossil Lab Open Houses Engaged southside community in monthly open houses for the newly opened Fossil Lab at the University of Chicago	2024
Southside Science Festival Presenter at a booth for a University of Chicago science communication event for local community	9/2023
Dinosaurs of the Sahara Assisted Sereno Lab in preparing displays and specimens for public exhibit at the Cleveland Great Lakes Science Center	5/2023
Gloucester Museum “Dinosaurs” Talks and Workshops Feathers and colour in dinosaurs	9/2017

Bristol Dinosaur Project Educational outreach program directed at children	2015
Jurassic Quest Educational day directed at young children involving fossil displays	7/2014
The Billings Clinic Presented to TV/print media and the public about use of CT scanner for undergraduate thesis	7/2013
Princeton Undergraduate Research and Public Service Symposium Alumni Day showcase of independent research	2013

Societies & Groups

The Society for the Study of Evolution	2025-present
The Palaeontological Association	2015-present
The Society of Vertebrate Paleontology	2013-Feb 2026
The Paleontological Society	2010-present
DinoSoc University of Bristol student paleontology society	2014-2017
Bristol University Geology and Geoscience Society	2014-2017
myFOSSIL.org Beta tester	2015
Princeton Undergraduate Geosciences Society	2012-2014
University of Bristol Snowsports Club Snowboard race team	2015-2018
University of Bristol Athletics and Cross Country Club Cross country	2014-2018
Princeton University Cannon Dial Elm Club	2012-2014
Princeton University Varsity Track and Field Non-recruited 'walk-on' pole vaulter & sprinter	2010-2014

Experience & Networks

International collaborative research network:

- USA
- Germany
- China
- United Kingdom
- Ireland
- India
- Canada
- Spain
- Argentina
- Denmark
- Italy
- Brazil
- Niger
- France
- Belgium
- Oman

Paleontological (prospecting, quarrying, preparation), geological, environmental, & biological field experience:

- University of Chicago: Wyoming
- Field Museum: Montana, Utah, Missouri, & Argentina

- Royal Tyrell Museum: Dinosaur Provincial Park, Alberta (Canada)
- Royal Tyrell Museum Field Station (preparatory lab): Dinosaur Provincial Park, Alberta (Canada)
- Dinosoc: UK
- Princeton University: geology (Spain, France, Utah, New Mexico, the Catskills, Kentucky, Delaware Water Gap, & Yellowstone National Park) & biology/environmental science (Bermuda & Yellowstone National Park)
 - Bermuda field experience in partnership with the Bermuda Institute of Ocean Sciences
- Independent paleontological field & preparatory lab experience over seven summers: Montana

Laboratory experience:

- Princeton University
- University of Bristol (UK)
- University of York (UK)
- University of Newcastle (UK)
- University of Copenhagen (Denmark)
- Foundation for Scientific Advancement
- Field Museum
- Northwestern University
- Argonne National Laboratory
- University of Chicago

Analytical experience:

- Specimen-based research (fossil & modern reptiles, birds, fish, invertebrates, plants)
- R-based morphometrics, statistics, & data analysis
- Fossil bone histology & thin sectioning
- Hospital & micro-CT scanning
- Decay & maturation experiments
- Light microscopy
- Electron microscopy
- Energy-dispersive X-ray spectroscopy
- Pyrolysis-gas chromatography-mass spectrometry
- Laser stimulated fluorescence imaging & fluorescence microscopy
- High-performance liquid chromatography
- DNA, protein, & lipid extraction (incl. clean lab)
- Qubit fluorometry
- Time-of-flight secondary ion mass spectrometry
- Accelerator mass spectrometry
- Attenuated total reflectance Fourier-transform infrared spectroscopy
- Synchrotron X-ray fluorescence
- Raman spectroscopy
- Portable X-ray fluorescence
- X-ray diffraction
- White light scanning & photogrammetry
- Laser ablation-inductively coupled plasma-mass spectrometry
- Magnetic resonance imaging
- Laser diffraction particle size analysis

Museum collections experience & research visits:

- Field Museum of Natural History
- American Museum of Natural History
- Senckenberg Naturmuseum Frankfurt (Germany)
- Paläontologische Museum München (Germany)
- Smithsonian National Museum of Natural History
- Yale Peabody Museum
- Carnegie Museum of Natural History
- Dinosaur National Monument
- Denver Museum of Nature and Science
- Sauriermuseum Aathal (Switzerland)
- Natural History Museum of Utah
- Wyoming Dinosaur Center
- Brigham Young University Museum of Paleontology
- Museum of Western Colorado
- Virginia Museum of Natural History
- Black Hills Institute of Geologic Research
- Utah Field House of Natural History State Park Museum
- Houston Museum of Natural Science
- Natural History Museum, London (UK)
- Chicago Botanic Garden

Newly Described Taxa

Spinosaurus mirabilis (Sereno *et al.* 2026, *Science*)

Cretaceous, Niger – Dinosaur

Novel microbial community within buried dinosaur bone (Liang *et al.* 2020, *Environmental Microbiome*)

Modern, Canada – 46 genomes from six bacterial phyla (Actinobacteria, Proteobacteria, Nitrospira, Acidobacteria, Gemmatimonadetes, Chloroflexi) & one archaeal phylum (Thaumarchaeota), the majority of which represented novel microbial lineages from class to species levels
